THE PLANNING

Guided, every step of the way

01

The walk-through

Your walk-through is where your wedding vision begins to come to life. Explore our spaces, share your ideas with your event coordinator, and talk through the details that will make your day feel uniquely yours.

02

The tasting

You're invited to one of our tasting nights to sample dishes crafted by our culinary team. Together we build a menu that reflects your taste and style, so the dining is as considered as everything else.

03

The lead-up

We liaise with your suppliers or connect you with our trusted partners, from florists to photographers, and coordinate a final walk-through so every detail is settled — leaving you free to enjoy the run-up to the day.
